#### **STAGE 3 – Waxing**

- Tool selection
- Wax selection and variants
- Tuning Edges and de-tuning tips/tails
- Polishing Edges

### **AFTERNOON SESSION**

Practical -

Your chance to try what we have discussed in the morning session, practicing on our range of test skis/boards.

Practical Feedback -

Feedback on any issues or questions you have from the practical session

Workshop Machinery -

An overview of more advanced workshop machinery and how and when it should be used. Time permitting and also depending on the goals of the attendees, there may be the chance to try using some machinery

Bindings -

A discussion on ski bindings. Please note we are unable to give specific binding training per brand as this should be done via the binding supplier, but we do cover what to look out on ski bindings
